Late Texas Notes

By PLENTY T. MOORE
TALLAS, Tex., May 9.—The Magnolia Petroleum company No. 1, L. C. Powell, Bartlesville surveyor, went to Duke D. D. Knowles drilling camp at 10 miles west of Tulsa, Okla., to see how they do 175 barrels per hour. The Peerless Petroleum company well near the Bartlesville gasifer, situated today as high as 1,000 barrels.

In the Caddo district, Stephens county, the Sun company is drilling No. 1, Rochele, at 3,250 feet with some oil and gas. This hole is half mile south of the Mid-Kansas City No. 1.

Art Edition Now in Circulation

A copy of the Art Edition of Oklahoma oil men, published by Miss M. E. Nessly of the Municipal Publishing company, has been received at this desk and, in our opinion, is a very creditable production. The editor has selected a few exponents from each department of petroleum operations and has presented to the layman, in his own language, the activities and the various operations of the industry. All of the articles contained in this volume are based upon personal interviews and consists of really valuable information to the embryo investor.

The oil men of the state have bought up the edition with the idea of presenting the books to visiting business men or of utilizing them as answers to the many requests for information with which they are continually besieged.

The publication will most effectively boost the state in general.

Besides completing the No. 4 in the southeast corner of the southwest of the southeast of section 5-24-10 a 500 barrel well in the 2,600-foot Bartlesville, the New England Oil & Producing Co. is drilling down rapidly in Nos. 6 and 7. No. 6 is drilling at 1,250 feet and No. 7 at 1,725. No. 7 has been drilled to 700 feet.

Graham & Bird No. 9 in the center of the east line of the east half of the northeast of 8-24-10 shut down at 1,200 feet. No. 10 in the center of the south line of the north half of the south half of the northeast of the section is a rig. No. 11 is drilling at 1,550, No. 12 at 800, and No. 14 at 200.

The Carter Oil company No. 13 in the center of the north line of the south half of the north half of the section is fishing at 2,048 feet. No. 15 is down to 2,040, and No. 16 at 1,100 feet.

The Echo Oil company No. 13 in the northwest corner of the southwest of the northwest of the northwest of 6 is a 125-barrel producer; the Phillips Petroleum company No. 7 in the center of the east line of the northeast of 8-24-10 has 170 barrels.

The latter company No. 8 in section 8 is down 1,900 feet and No. 9, 2,000. No. 10 is spudding and No. 11 is moving in tools to commence drilling.

The Texas company's No. 5 in the southwest corner of the northwest of the southwest of the northwest of 18 is estimated at 40 barrels.

The Phillips Petroleum company and the Gyro and others are drilling at 500 feet in the No. 2 in the northwest corner of the northeast of 8-24-10 and at 1,850 in the No. 1 in the northeast of the section.

The Old Dominion and Fletcher are spudding in the No. 1 in the northwest corner of 9-24-10.

The Twin States Oil company No. 1 in the southeast corner of the southwest of the northwest of the southwest of 18 is a rig up and the No. 1 in the southeast corner of the southwest of the section is making 3,000,000 feet of gas in the sand at 2,060 feet and flowing 100 barrels of oil.

Foster and others are spudding the No. 3 in the northwest corner of

the southwest of the southwest of the southwest of 18.

Making a tour of inspection over the Empire and other Henry L. Doherty properties, a special train containing more than 150 bankers and business men, came to see the new properties, most of them from New York and the east, arrived in Bartlesville Monday morning, preparatory to starting on a trip over the state.
